AFFRAYS, OUTBREAKS, DISTURBANCES, &c.—*cont.*	1851.	
Malabar.—Report on the last Moplah outbreak by the Assistant Collector with the remarks of the Collector, reviewed. The Right Honourable the President, the Honourable Messrs. Elliot and Thomas record their minutes separately.		
Do.—*No Immediate Cause* for the outbreak seen by Government, Komu Menon not having since some months exasperated the Moplahs (Para. 2).		
Komu Menon's murder observed to have been premeditated (Para. 3).		
Causes of the outbreak guessed (Para. 4).		
Outbreak caused not by the wild excitement of a moment but traceable to the teaching and influence of the Tangals (Paras. 5, 6 & 7).		
The above view borne out by the difference of the present from the former outbreaks (Paras. 8 to 11).		
Possibility of finding evidence on the Tangals' complicity, and of his removal for some time from the Province to be reported on (Para. 12).		
Traces of plundered property, to be found by Magistrate by the offer of rewards.		
Complicity of Kolatur Moplahs, its extent also to be ascertained (Para. 13).		
Removal of the Priest, demand of security from suspected parties and finding out the stolen property with a view to the prosecution of all concerned pointed out by Government as the measures to be adopted and should the Court interfere, an appeal to be made to Foujdaree Udalut and the matter reported to Government (Para. 14).		
Privity of many to the outrage, noticed. It is an offence termed "Misprison" and punishable under Mahomedan Law. Foujdaree Udalut to give their opinion on this view of the law, and submit draft of a Proclamation for warning the Moplahs, &c., the same law to reach the Tangal too (Para. 15).		
Doctrine of Martyrdom among Moplahs, noticed (Para. 16).		
This doctrine to be discouraged by Magistrate and capture of the insurgents rather than their destruction to be effected in future (Para. 17)	25th Nov.	3-8
Malabar.—Replacement of Moplah employes in Shernad, Ernad and Walloowanad by Hindoos, suggested by the Hindoo inhabitants of the district with reference to the late outbreaks. The explanation of Magistrate on the subject considered satisfactory. Government cannot consent to depart from the course they have hitherto pursued for employing in their service Moplahs indifferently with others

Operation of Act IX of 1850.—Returns furnished by Honourable Puisne Judge of Supreme Court and by Judges of the Small Cause Court of the number of suits instituted, tried and decided before them and fees paid thereon under the Act for the first six months of 1851 received by Government		
The arrangement proposed by the Honourable Judges of the Supreme Court, in consequence of a single Judge of them being unable to aid in the execution of the Act to the extent he has hitherto done of hearing only causes of Rs. 100 and upwards, observed by Government to be likely to increase the causes devolving on the Small Cause Court to nearly three-fold the number before the late Court of Requests and about 35 fold of the causes the Supreme Court would take. The expense of the administration of the Small Cause Act in the Supreme Court considered, with reference to the allowance granted to the Prothonotary, &c., to be comparatively heavier. The fees to be realized will not allow of these allowances being continued when the number of causes in the Supreme Court will be reduced as above (Paras. 1 to 3).		
The above returns to be furnished to Supreme Government and Honourable Court with the intimation that other similar returns and the report called for on 16th May last, will be sent at the expiration of the year (Para. 4).		
Similar returns from 6th December 1850 to 31st December 1851 to be submitted by Small Cause Court soon after the close of the year (Para. 5).		
Investigation of suits above Rs. 100 by Supreme Court in the meanwhile not objected to by Government and though with reference to the little aid thereby afforded, Government doubt the expediency of dividing the jurisdiction (Para. 6).		
Modifications of the office establishment of Small Cause Court sanctioned as proposed and will be reported to Government of India and the working of the revised establishment to be reported on at the end of year (Para. 7).		
Recommendation of gratuities to displaced parties. The subject referred to Pension Department with observation (Para. 8).

The Accountant-General offers observations on a letter from the Honourable Company's Solicitor on the subject of the forms of account to be adopted by the Administrator-General here. The Government of India submit their opinion on the questions raised in regard to the competency of the Administrator-General under Act II of 1850 to administer to certain classes of estates, and do not think that any alteration of the Law is necessary for carrying into effect, an uniform system in regard to the grant of administration to intestate estates by the Madras Supreme Court. The Honourable Company's Solicitor requests to know whether the Government have approved of the gentlemen named by Mr. Serle as his sureties. The Military Secretary to Government explain the extent of authority he possesses under the Military Act in regard to the administration to Military Estates. Government accept Messrs. Richardson as Mr. Serle's sureties and direct the forms of security bonds to be drawn by the Honourable Company's Solicitor according to the Calcutta form and sent to Government office. The Government are of opinion that the Bengal rules and forms for the guidance of the Administrator-General and for the custody of assets and securities coming into his possession should be adhered to except where the Company's Solicitor and Advocate-General may concur in advising a deviation. The rules prepared accordingly sent to Administrator-General and published and the instructions addressed to him on 11th March 1850, to cease to have effect from the date on which the rules and forms come into operation. With regard to the classes of estates to be administered to by the Administrator-General, Government review the correspondence with the Accountant-General and communicate the views of the Government of India to him and to Administrator-General and instruct them to consult the Advocate-General as to the course to be taken to obtain from Supreme Court a formal construction of the Act in support of the view of Government of India.
